

Employee Benefits

A new Era

Willis in the UK now has the capability to offer you expert advice on your Employee Benefits programmes.

If you have a Benefits Programme in place for your staff in the UK, we can:

- **Audit the scheme** to confirm that it meets your needs, as well as any legal/tax requirements and current market practice. We will advise you on the best way to make any changes whilst ensuring the benefits remain cost effective for you.

- **Review the existing insurer** against other leading market providers to ensure you benefit from competitive terms every year
- **Administer the schemes** to ensure you receive a proactive and efficient service on a day to day basis

If you are looking into setting up a new programme or introduce additional benefits, we can also guide you as to the type and level of benefits you should implement as well as setting up and helping you to communicate the new benefits to your employees

Who to Contact:

Who Are We?

A newly acquired specialist team, focussing purely on non-investment employee benefits and with access to pension advice and administration via other regulated firms.

Areas of Business

Core benefits, include:

- Death in Service
- Income Protection
- Private Medical Expenses
- Critical Illness
- Keyman Cover

We also provide advice and assistance on many other areas such as absence management and voluntary or flexible benefits

How are we different?

We understand that Risk & Healthcare benefits are a vital part of any Employee Benefits Programme and all too often they are sidelined in favour of the pension scheme. Because we just deal with Risk & Healthcare benefits we can ensure you get the right advice and cutting edge, competitive terms, tailored to suit your needs

What Next...

Let us show you the difference Willis can make by contacting Bev Simmons or Jim Konig for an initial discussion about how we can help you
