

Women's Health and Cancer Rights Act: Annual Notice Reminder

Employers often overlook the annual notice requirement that applies to them under the *Women's Health and Cancer Rights Act of 1998* (WHCRA). Ideally, employers will avoid incurring additional costs to provide this notice each year by sending it as part of the annual health plan enrollment materials, or another annual mailing. Because many plans are now preparing for annual enrollment, we are taking this opportunity to send a reminder about this annual WHCRA notice requirement.

WHCRA requires health plans to cover certain items for individuals who have had a mastectomy. WHCRA also requires health plans to provide notice of this coverage both at enrollment and annually. WHCRA notices may be included in any of the following materials:

- Union or benefits newsletters;
- Open enrollment materials; or
- Any other written communications about the plan.

Most employers find it convenient to provide WHCRA notices in enrollment materials and to use the same text for both the enrollment notice and the annual notice. The first text box below offers a sample of a WHCRA enrollment notice. A compliant enrollment notice also can be used to satisfy the annual notice requirement.

The *Women's Health and Cancer Rights Act of 1998* requires group health plans to make certain benefits available to participants who have undergone a mastectomy. In particular, a plan must offer mastectomy patients benefits for:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses; and
- Treatment of physical complications of the mastectomy, including lymphedema.

Our plan complies with these requirements. Benefits for these items generally are comparable to those provided under our plan for similar types of medical services and supplies. Of course, the extent to which any of these items is appropriate following mastectomy is a matter to be determined by consultation between the attending physician and the patient. Our plan neither imposes penalties (for example, reducing or limiting reimbursements) nor provides incentives to induce attending providers to provide care inconsistent with these requirements. If you would like more information about WHCRA required coverage, you can contact the plan administrator at [insert telephone number].

The DOL has approved using a more abbreviated notice to fulfill the annual notice requirement. This shorter form of notice cannot, however, be used to satisfy the enrollment notice requirement.

Do you know that your plan, as required by the *Women's Health and Cancer Right Act of 1998*, provides benefits for mastectomy-related services including all stages of reconstruction and surgery to achieve symmetry between the breasts, prostheses, and complications resulting from a mastectomy, including lymphedema? Call your plan administrator at [insert phone number] for more information.

For more information about WHCRA or other employee benefits matters, please contact your local Willis office.
