

WILLIS PROJECT SUPERVISOR

THE APPOINTMENT OF PROJECT SUPERVISORS (DESIGN AND CONSTRUCTION) IS A KEY STATUTORY APPOINTMENT FOR A CLIENT ON ALL CONSTRUCTION PROJECTS. WILLIS HAVE UNPARALLELED EXPERIENCE IN SUPPORTING OUR CLIENTS AND MAKING SURE PROJECT ARE DESIGNED AND CONSTRUCTED SAFELY.

The Safety Health and Welfare at Work (Construction) Regulations 2006 introduced many changes to the Management of Construction Safety in Ireland. Key among these changes was the expansion of the role of Project Supervisor (Design) and the Client's responsibilities.

Willis has specialised in both the roles of Project Supervisor Design and Project Supervisor Construction since their creation in the 1995 Regulations. Our extensive experience in Construction has provided our Risk Management Executives and Safety Officers with key insights into the hazards and issues affecting Construction Personnel and the means by which these can be eliminated or mitigated in accordance with the General Principles of Prevention.

[Project Supervisor Design Process](#)

Willis have developed key Risk Management tools for performing the role of Project Supervisor for the Design Process, which provides the design team with assurance that the project is designed in compliance with all Regulatory requirements and in line with best practice.

We act as the "Client's Friend" ensuring that the Client has fulfilled all key statutory responsibilities, from project notification, competency checks to provision of health and safety information.

We ensure our role is integrated into the design team, going above our legal duty to ensure cooperation and we review the designs not only from a construction perspective and future maintainability but also from a client's future operation and emergency planning.

We have assisted many Architects and Designers in the development of Design Safety Protocols and Risk Assessment Procedures as well as providing training on these key aspects.

[Project Supervisor Construction Stage](#)

Willis have provided Project Supervisor for the Construction Stage services since 1995.

We have specific experience in ensuring the safety of workers in large Residential Developments as well as Commercial, Manufacturing, Quarrying, Cement, Pharmaceutical, Waste Management and many other industry sectors.

We can provide our services in support to the Main Contractor or as a standalone entity, with a full suite of pre-printed permits, forms, badges and signage.

In addition Willis also provide Construction Site Inspections, Audits, Retained Persons for companies who require impartial advice or the nature of the project does not warrant full-time Safety Officers.
