

Environmental Services

WRM have in-house expertise in identifying, managing and insuring environmental risks. We offer services in site investigation and remediation, environmental auditing, the development of environmental management systems including ISO14001, pre-acquisition environmental due diligence, environmental insurance and training.

Environmental Services Include:

- § Environmental Management Systems (EMS) Development and Auditing;
- § EHS Legislative Updates;
- § Environmental Noise and Vibration Monitoring;
- § Occupational Noise Assessments;
- § Environmental Liability reviews;
- § Building Energy Rating (BER) Assessments;
- § Discharge Licence Applications and Monitoring;
- § Environmental Training

ENVIRONMENTAL MANAGEMENT SYSTEMS

WRM have significant expertise in the development and implementation of Environmental Management Systems to the ISO14001 standard. For smaller organizations with more limited resources. WRM can assist the company to implement the EMS on a phased basis in line with BS8555.

LEGISLATIVE UPDATES

WRM can offer a legislative update service to its clients, whereby updates of relevant legislative is provided on a weekly or fortnightly basis to clients along with any guidance available and a summary of what impact the new legislation will have for the company.

NOISE AND VIBRATION MONITORING

WRM can provide environmental noise and vibration monitoring services for clients for construction projects where environmental limits have been set. We can either set up the monitoring programme (and provide instructions to the site representative for on-going monitoring) or manage the environmental monitoring programme for the lifetime of the project.

OCCUPATIONAL NOISE ASSESSMENTS

WRM can provide a competent person as required by the legislation to carry out occupational noise assessments in the workplace. The report provided will include the results of the noise assessment, observations made during the visit and recommendations, where appropriate, to comply with the current legislation.

ENVIRONMENTAL LIABILITY REVIEWS

WRM has experience in carrying out thorough reviews of the environmental performance of companies being taken over (and provide an assessment of the company's environmental liabilities).

BUILDING ENERGY RATINGS (BER)

WRM can provide BER Assessment Services as required by the European Communities (Energy Performance of Buildings) Regulations 2006.

A BER Certificate is compulsory for all existing buildings (both dwellings and other buildings) when offered for sale or letting on or after 1st January 2009.

DISCHARGE LICENCE APPLICATIONS AND MONITORING

WRM can assist companies in applying for discharge licence applications (both surface water and waste water) and monitoring the compliance of their discharges with the licence issued.

TRAINING

WRM can provide bespoke environmental training courses (accredited if necessary) for clients. All WRM trainers have successfully completed an accredited Certificate Course in Training and Development.
